YEN-SHIN LAI

Chair Professor, Fellow IEEE

President, Taiwan Power Electronics Association

Founder, Center for Power Electronics Technology

http://cpet.ee.ntut.edu.tw/

National Taipei University of Technology

Department of Electrical Engineering

1, Sec. 3, Chung-Hsiao E. Rd., Taipei, 106, Taiwan

E-mail: yslai@ntut.edu.tw

Phone: +886-2-27719442

Fax: +886-2-27317187

Education:

Ph. D. 1995 Dept. of Electrical and Electronic Eng., Bristol University, England, UK

MS 1987 Dept. of Electronic Eng., NTUST, Taipei, Taiwan

Innovation:

First proposal of *sub-optimal two-phase/three-phase PWM* for inverter-controlled motor drives

First proposal of *random PWM technique* with *constant sampling frequency* for *closed-loop* motor drives

First proposal of *optimal PWM technique common-mode voltage reduction* of inverter-controlled motor drives

First proposal of initial position detection technique of BLDC motor drives *without* requiring current sensor

First proposal of *tri-nary* multilevel inverter/converter to give the maximum output level for the same stages

First proposal of *virtual-stage PWM* for multilevel inverter

First proposal of *conduction loss reduction* PWM technique for BLDC motor drives

First proposal of *wide speed range* control technique for *sensor-less* BLDC motor drives

First proposal of field weakening control technique for AC motor drives to achieve *hexagonal trajectory*

First proposal of *on-line* parameter tuning technique for predictive digital power converter

First proposal of *two-dimensional* random PWM technique with *constant* sampling frequency for converter

Employment and Research Experience:

2016– 2018	Chair, Electrical Power Engineering Division, Ministry of Science and Technology, Taiwan
2016 – 2019	Chair Professor, National Taipei University of Technology, Taiwan
2016 – 2019	President, Taiwan Power Electronics Association
2016 –	Lifetime Distinguished Professor, National Taipei University of Technology, Taiwan

2013 – 2016	Chair/Distinguished Professor, National Taipei University of Technology, Taiwan
2013 – 2014	Distinguished Researcher, Industry Technology Research Institute, Hsin-Chiu, Taiwan
2011 – 2011	Visiting Professor, Virginia Tech., USA
2006 – 2012	Distinguished Professor, National Taipei University of Technology, Taiwan
1999 – Present	Professor, National Taipei University of Technology, Taiwan
2003 – 2006	Chairman, Department of Electrical Engineering, National Taipei University of Technology, Taiwan
1996 – 1999	Associate Professor, National Taipei University of Technology, Taiwan
1987 – 1996	Lecturer, National Taipei University of Technology, Taiwan
1984 – 1985	Engineer, BES Engineering Cooperation, Taipei, Taiwan
1982 – 1984	Second Lieutenant, Air Force, Taiwan.

Professional Society Activities:

2019	International Steering Committee, ECCE Asia, Korea, 2019
2018	PEAC Technical Program Co-Chairs, China, 2018
2018	ACEPT International Steering Committee, Singapore, 2018
2018	Vice-Co Chairs, Steering Committee, IPEC-Niigata/ECCE-Asia, Japan, 2018
2018	Invited Plenary Speaker, IPEC-Niigata/ECCE-Asia, 2018, Niigata, Japan
2018	Member, IPEC-Niigata/ECCE-Asia Takahashi Award Committee, 2018
2017	Invited Keynote Speaker, 6th International Conference on Renewable Energy Research and Applications, San Diego, USA
2017	Invited Keynote Speaker, 2nd Gwinstek Cross Strait Power Electronics Symposium, Shanghai, China
2017	International Steering Committee (ISC), 2nd Asian Conference on Energy, Power and Transportation Electrification (ACEPT)
2017	General Co-Chairs, IEEE IFEEC - ECCE Asia, 2017
2017	Track Co-Chairs, IEEE IECON 2017
2016	Technical Program Co-Chair, IEEE ICIT 2016
2016	Associate Editor, Electrical Power Engineering, IET
2016	Track co-Chairs, IEEE IECON2016
2016	Track co-Chairs, IEEE International Conference on Electrical Machines (ICEM)
2016	IEEE International conference on Power Electronics, Drives and Energy Systems (PEDES), 2016
2015	Council Members, IEEE Industry Application Society 2015
2015	ECCE Steering Committee, TC Committee Chair -Industrial Drives, IEEE 2015

2015	Member, 2015 IEEE IAS Gerald Kliman Innovator Award Review Committee
2015	Track Co-Chair, Electric Drives, IEEE-IFEEC 2015
2015	Track Co-Chair, Electric Drives, IEEE-IEMDC 2015
2014─ 2016	AdCom member (elected), IEEE Industrial Electronics Society
2014─ 2015	Chair, IEEE Industrial Drives Committee of IEEE IAS
2014	Member, 2014 IEEE IAS Gerald Kliman Innovator Award Review Committee
2014	Member, 2014 IET-EPA Paper Award and Prizes Committee
2013─ 2016	Vice President, Taiwan Power Electronics Association
2014	Technical Program Co-Chair, IEEE ISIE 2014
2014	Guest Associate Editors, special issue on "Modeling and Control of Power Electronics for Renewable Energy and Power Systems." IEEE Journal of Emerging Special Topic on Power Electronics
2014	Special Session Organizer, IPEC 2014
2013	Technical Program Co-Chair, IEEE ISIE 2013, IEEE IFEEC 2013
2013	International Steering Committee Member, IEEE SLED, Germany, 2013
2013	Track Chair, Control of Power Converters, IEEE PEDS, Japan, 2013
2012 – 2013	Technical Committee Paper Review Chair for IDC, IEEE Transactions on Industry Applications
2012 ─ 2013	Vice Chair (Paper), IEEE Industrial Drives Committee of IEEE IAS
2012	International Advisory Board Member, ICRERA, Japan, 2012
2012	Associate Editor, IEEE Trans. on Industry Applications, Joint Special Issue on Drives and Machines in Emerging Applications, 2012
2011 ─ 2013	AdCom member (elected), IEEE Industrial Electronics Society, 2011-2013
2011	Associate Editor, IEEE Trans. on Power Electronics, Joint Special Issue on Power Electronics in Emerging Applications, 2012
2011─ 2013	Associate Editor, Asia Journal Control
2011	Vice Chair, Technical Program Committee, IEEE Energy Conversion Congress and Exposition (ECCE), Phoenix, USA
2010 ─ 2012	Board member of Taiwan Power Electronics Association
2010	Vice Chair, Technical Program Committee, IEEE Energy Conversion Congress and Exposition (ECCE), Atlanta, USA
2010 ─ 2011	Vice Chair (Program), IEEE Industrial Drives Committee of IEEE IAS
2010	Member of Technical Program Committee, IPEC, Japan
2010	Member of International Steering Committee, International Conference on Industrial Technology, IEEE
2009	Vice Chair, Technical Program Committee, IEEE Energy Conversion Congress and Exposition (ECCE), San Jose, USA

2009 ─ 2010	Chair, Taipei Chapter, IEEE IAS
2009 ─ Present	Editorial Board Member, IET, Electrical Power Applications, UK
2008─ 2011	Associate Editor, IEEE Trans. on Industry Applications, IDC
2008 ─ 2009	Secretary of Industrial Drives Committee of IEEE IAS
2008	General Co-Chair, the 6th International Mini-Workshop on Power Electronics and Motion Control
2008 ─ Present	Editorial Board Member, International Journal of Power Electronics
2008 ─ 2011	Editor-in-Chief, Journal of Power Electronics, Taiwan
2008-2010	Board member of Taiwan Power Electronics Association
2007	Organizer and Chair, Industry Panel Discussion, IEEE IECON, 2007
2007	Chair, Post Session, IEEE IECON, 2007
2007	Member of International Steering Committee, the 7th International Conference on Power Electronics, Korea
2007	Member of Program Committee, PCC, Japan
2007	Session Organizer, Industrial Power Conversion Committee of IEEE IAS Annual Meeting, USA
2007	Member of Program Committee, IEEE SMC Society Annual Meeting, Canada
2006	Member of Program Committee, IEEE SMC Society Annual Meeting, USA
2006	Session Organizer, Industrial Power Conversion Committee of IEEE IAS Annual Meeting, USA
2006	Session Organizer, Industrial Drives Committee of IEEE IAS Annual Meeting, USA
2005	Member of Program Committee, IPEC, Japan
2005	Session Chair, IEEE Industry Applications Society Annual Meeting, Hong Kong
2004	Session Chair, IEEE IECON, Korea
2004 – Present	Associate Editor, IEEE Transactions on Industrial Electronics
2000 – Present	Guest Editor, Special Issue on Inverter Technology and Applications, Electrical Monthly
2000– Present	Member of Industrial Power Conversion Committee of IEEE IAS
1999– Present	Member of Industrial Drives Committee of IEEE IAS
1999 – Present	IEEE Power Electronics Society Transactions and Conferences (APEC, PESC and ECCE) paper reviewer
1998 – Present	IEEE Industry Applications Society Transactions and Annual Meeting paper reviewer
1997 –Present	IEE Proc. of Electric Power Applications, paper reviewer
1997 – 2004	IEEE Trans. on Aerospace and Power Electronics, paper reviewer

Honors and Awards:

2018	Eminent Research Award for 2017, Ministry of Science and Technology, Taiwan
2017	Best Paper Award, Asian Conference on Energy, Power and Transportation Electrification (ACEPT), 2017
2017-2018	Vice Chair, Fellow Committee, IEEE Industrial Electronics Society
2017	Fellow Committee, IEEE Industry Applications Society, IEEE Industrial Electronics Society
2016	Best Paper Award, Symposium of Electrical Power Engineering, 2016
2016	Best Paper Award, Taiwan Power Electronics Conference, 2016
2014	*Fellow, IEEE*
2014	Best Paper Award, Taiwan Power Electronics Conference, 2014
2013	Best Paper Award, Symposium of Electrical Power Engineering, 2013
2013	Best Paper Award, IEEE, PEDS, Japan, 2013
2013	Outstanding Research Award for 2012, National Science Council, Taiwan
2012	Outstanding Paper Award, International Conf. on Renewable Energy and Applications, Nagasaki, Japan, 2012
2012	Best Paper Award, Taiwan Power Electronics Conference, 2012
2011	Best Paper Award, Symposium of Electrical Power Engineering, 2011
2010	Best Paper Award, Taiwan Power Electronics Conference, 2010
2009 – 2012	Distinguished Professor, National Taipei University of Technology, Taiwan
2009	Best Paper Award, Taiwan Power Electronics Conference, 2009
2008	Eminent Supervisor Award, Taiwan Power Electronics Association
2007	Reward for Technology (Patent) Transfer, National Science Council, Taiwan
2007	Eminent Research Award, College of EECS, National Taipei U. of Technology
2007	First Class Principal Investigator, National Science Council, Taiwan
2006	First Class Principal Investigator, National Science Council, Taiwan
2006 – 2009	Distinguished Professor, National Taipei University of Technology, Taiwan
2005	First Class Principal Investigator, National Science Council, Taiwan
2004	The Best Presentation Award, IECON 2004, IEEE
2004	Excellent Project Award, TECO Electric & Machinery Co. Ltd.
2003	Eminent Research Award, College of Mechanical and Electrical Engineering, National Taipei U. of Technology
2002	Technical Committee Prize Paper Award, IAS Industrial Drives Committee, IEEE
2002	Eminent Research Award, College of Mechanical and Electrical Engineering, National Taipei U. of Technology
2001	Excellent Award for DSP Competition, Texas Instrument Inc.
2001	Eminent Research Award, College of Mechanical and Electrical Engineering, National Taipei U. of Technology

2000	Research Award, National Science Council, Taiwan
1999	Research Award, National Science Council, Taiwan
1997	The Best Journal Paper Award, John Hopkinson Premium, IEE, UK
1996	Research Award, National Science Council, Taiwan
1995	The Overseas Research Scholarship Award, Higher Education Funding Bodies, UK
1994	The Overseas Research Scholarship Award, Higher Education Funding Bodies, UK

Selected Conference Papers:

1. Y. S. Lai and J. Y. Wang, "Novel Switching Control Technique for Bridgeless PFC to Reduce Both Switching and Conduction Losses," Oct. 28-Nov. 1, IEEE IECON 2017.
2. Y. S. Lai and J. Y. Wang, "On-line Auto-tuning Technique of Switching Frequency for Resonant Converter Considering Resonant Components Tolerance and Variation," Oct. 24-26, ACEPT, 2017.
3. Y. S. Lai and M. H. Ho, "Self-Commissioning Technique for High Bandwidth Servo Motor Drives," IEEE ECCE 2017.
4. M. H. Ho and Y. S. Lai, "Controller Design of Servo Drives for Bandwidth Improvement," IEEE IFEEC-ECCE Asia, 2017.
5. J. F. Chen, Y. S. Lai and W. S. Chen, "Hybrid Predictive Current-Mode Control for Power Factor Corrector with On-line Parameter Tuning," IEEE IECON, 2016.

6. Y. S. Lai and M. S. Yu, "Efficiency Improvement Method for Two-Stage Server Power by Auto-Tuning of Bus Voltage based upon New On-Line Switching Frequency Tracking Technique," IEEE IECON, 2016.
7. C. J. Hsu and Y. S. Lai, “On-Line Optimal Bandwidth Search and Auto Tuning Techniques for Servo Motor Drives,” IEEE ECCE, 2016.
8. Y. S. Lai, Y. K. Lin, F. P. Chuang, and J. T. Yu “Novel Modeless Predictive Current Control for Three-Phase AC/DC Converter,” IEEE ICIT 2016.
9. Y. S. Lai and S. W. Chen, “New Switching Control Technique to Improve the Efficiency under Light Load Condition for LLC Converter with Large Magnetizing Inductance,” IEEE INTELEC, 2015.
10. C. K. Lin, D. Y. Wu, J. W. Hu, H. C. Yu, and Y. S. Lai . “Model-Free Predictive Current Control of a Voltage Source Inverter,” IEEE IFEEC, 2015
11. P. Y. Lin, W. T. Lee, S. W. Chen, J. C. Hwang, and Y. S. Lai, “Infinite speed drives control with MTPA and MTPV for interior permanent magnet synchronous motor,” IEEE IECON, Nov., 2014.
12. H. L. Chiang and Y. S. Lai, “New open loop control technique of boost converter to mitigate temperature impact for LED applications,” IEEE IECON, Nov., 2014.
13. Y. S. Lai, W. S. Chen, F. C. Lee, T. W. Shei, S. H. Chang, and C. C. Lin, “Multi-source converter for energy harvest in an internal combustion engine vehicle and its power distribution control,” IEEE ISIE, June, 2014.
14. W. S. Chen and Y. S. Lai, “Design of laboratory course for learning power converters at Taipei Tech,” IEEE ISIE, June, 2014.
15. Y. S. Lai and K. M. Ho, “FPGA-based digital-controlled power converter designed with universal input meeting 80 plus platinum efficiency code and standby power code for sever power applications,” IEEE ECCE Asia, May, 2014
16. Y. S. Lai and J. S. Su, “On-line DC-link voltage control of LLC resonant converter for server power applications,” IEEE ECCE, Sep., 2014.
17. P. Y. Lin and Y. S. Lai, “Voltage Trajectory Control for Vector-Controlled Induction Motor Drives to Achieve Six-Step Operation,” IEEE IECON 2013.
18. Y. S. Lai and J. S. Su, “On-Line Maximum Duty Point Tracking with Hybrid Control Technique to Improving Two-Stage Server Power Efficiency and Meet the Hold-up Time Requirement,” IEEE ECCE 2013.
19. Y. S. Lai and Y. K. Lin, "Design and Implementation of Digital-Controlled Bi-directional Converter for Scooter Applications," Proc. of the 10th IEEE PEDS, pp.271-276, 2013.
20. Y. S. Lai and C. A. Lai, "New AC/DC Converter Considering Both Inrush Current Limitation and Start-up Time," Proc of the 10th IEEE PEDS, pp.1231-1235, 2013.
21. Y. S. Lai and K. M. Ho, "Novel On-line Parameter Tuning Method for Digital-Controlled Boost PFC with Transition Current Mode," Proc of the 10th IEEE PEDS, pp.232-237, 2013.
22. Y. S. Lai, S. W. Chen, W. T. Lee, Y. K. Lin and J. F. Tsai, "Novel Integrated Inverter/Converter Circuit and Control Technique of Motor Drives with Dual Mode Control for EV/HEV Applications," Proc of the IEEE ISIE, pp.1-6, 2013.

23. Y. S. Lai, Z. J. Su and Y. T. Chang, "New Thermal Balance Control Techniques of Phase-Shift Full-Bridge Converter," Proc of the IEEE ECCE, pp.3975-3980, 2012.
24. Y. S. Lai and B. Y. Chen, "Two-dimensional Random PWM Technique for Full-bridge DC/DC Converter," Proc of the IEEE IECON, pp.846-851, 2012.
25. Y. S. Lai and Z. J. Su, "Novel On-Line Maximum Duty Point Tracking Technique to Improving Server Power Efficiency Meeting 80Plus Gold Code," Proc of the IEEE IECON, pp.609-614, 2012.
26. Y. S. Lai and S. J. Lu, "Multi-Inverters Control Technique with Current Sharing Control for Back-up Power System Applications," Proc of the IEEE ICRERA, pp.1-7, 2012.
27. Y. S. Lai and K. M. Ho, "Bandwidth-based Analysis and Controller Design of Power Factor Corrector for Universal Applications," Proc of the IEEE ICIT, pp.626-631, 2012.
28. Y. S. Lai and K. M. Ho, "Novel Random Switching PWM with Constant Sampling Frequency and Constant Inductor Average Current for Digital-Controlled Power Factor Corrector," Proc of the IEEE ECCE, pp.4577-4583, 2012.
29. Y. S. Lai, Y. K. Lin and C. W. Chen, "New Hybrid Pulse-Width Modulation Technique to Reduce Current Distortion and Extend Current Reconstruction Range for Three-Phase Inverter using only DC-Link Sensor," Proc of the 6th IEEE IET, pp. 1-6, 2012.
30. Y. S. Lai and K. M. Ho, "FPGA-based Digital-controlled Power Converter with Universal Input Meeting 80 Plus Platinum Efficiency Code and Standby Power Code for Sever Power Applications," Proc of the IEEE ICRERA, pp. 1-6, 2012.
31. Y. K. Lin and Y. S. Lai, “PWM technique to extend current reconstruction range and reduce common-mode voltage for three-phase inverter using DC-link current sensor only," Proc. of the 3rd IEEE ECCE, 2011.
32. Y. T. Chang, B. Y. Chen and Y. S. Lai, “Novel random switching PWM technique with constant sampling frequency and constant inductor average current for digital-controlled converter," Proc. of the 3rd IEEE ECCE, 2011.
33. Y. S. Lai, Z. J. Su, C. A. Yeh, F. Takahashi and M. Hamaogi, "Current sensing methods for standby power control of digital-controlled DC/DC converter," Proc. of the 8th IEEE ICPE, pp. 1742-1748, 2011.
34. Y. S. Lai, Y. T. Chang and C. T. Kuo, “Robust control of digital-controlled buck converter based upon two-degree-of-freedom controller,” presented in IEEE IECON, 2010.
35. Y. T. Chang and Y. S. Lai, “Practical considerations for the design and implementation of digital-controlled power converters,” presented in IEEE IECON, 2010.
36. P. Y. Lin and Y. S. Lai, “Voltage control of interior permanent magnet synchronous motor drives to extend DC-link voltage utilization for flux weakening operation,” presented in IEEE IECON, 2010.
37. B. Y. Chen, C. C. Hsu and Y. S. Lai, “Novel current limitation technique without current feedback for digital-controlled battery charger in UPS applications,” presented in IEEE ECCE, 2010.
38. C. A. Yeh, K. M. Ho and Y. S. Lai, “An unified approach to predictive transition current mode control for digital-controlled power factor corrector,” presented in IEEE ECCE, 2010.

39. Y. K. Lin and Y. S. Lai, “Pulse-width modulation technique for BLDCM drives to reduce commutation torque ripple without calculation of commutation time,” presented in IEEE ECCE, 2010.
40. P. S. Chena nd Y. S. Lai, “EMI filter design of three-phase inverter for motor drives using a software-based noise separation scheme,” presented in IPEC, June, 2010.
41. C. A. Yeh, K. M. Ho and Y. S. Lai, “Digitally-Controlled Power Factor Corrector with Interleave Transition Current Mode Control,” Proc. of the IET PEMD, 2010.
42. C. A. Yeh, K. M. Ho, Y. S. Lai, F. Takahashi and M. Hamaogi, “Digital-controlled power factor corrector with transition current mode control without zero current detection ,” Proc. of IEEE PEDS, pp. 198-203, Nov. 2009.
43. C. A. Yeh and Y. S. Lai, “Novel hybrid control technique with constant on/off time control for DC/DC converter to reduce the switching losses,” Proc. of IEEE PEDS, pp. 848-853, Nov. 2009.
44. B. Y. Chen and Y. S. Lai, “Novel dual mode operation of phase-shifted full bridge converter to improve efficiency under light load condition,” Proc. of IEEE ECCE, pp. 1367-1374, 2009.
45. Y. T. Chang and Y. S. Lai, “On-line parameter tuning technique for predictive current mode control operating in boundary conduction mode,” Proc. of IEEE ECCE, pp. 715-712, 2009.
46. Y. K. Lin and Y. S. Lai, “Dead-time elimination method and current polarity detection circuit without separate power sources for three-phase inverter,” Proc. of IEEE ECCE, pp. 83-90, 2009.
47. P. Y. Lin and Y. S. Lai, “Novel voltage trajectory control for field weakening operation of induction motor drives,” Proc. of IEEE ECCE, pp. 1540-1546, 2009.
48. Y. S. Lai and Y. K. Lin, “Dead-time elimination of PWM-controlled inverter/converter without separate power sources for current polarity detection circuit,” presented in IEEE ISET, Nov., 2008.
49. P. Y. Lin and Y. S. Lai, “Novel voltage trajectory control for flux weakening operation of surface mounted PMSM drives,” presented in IEEE IAS, 2008.
50. Y. T. Chang and Y. S. Lai, “Digital compensator design to reduce phase lag for multi-sampling controlled DC-DC converters,” presented in IEEE IAS, 2008.
51. Y. T. Chang and Y. S. Lai, “Digital controller design for buck converter with the reduction of phase transition and output voltage oscillation under transient state,” IET PEMD, April, York, 2008.

RESEARCH ACTIVITIES:

Projects Sponsored by Ministry of Science and Technology:

1. Design and Implementation of High Bandwidth Servo Drives with SiC Inverter and Delta-Sigma ADC under High Inertia Condition, (Ministry of Science and Technology, 2017-2020, Sole PI)
2. Project of Research Development and Working Group for Electrical Power Engineering Division, (Ministry of Science and Technology, 2017, Sole PI)
3. Project of Research Development and Working Group for Electrical Power Engineering Division, (Ministry of Science and Technology, 2016, Sole PI)
4. Technology Development of Bandwidth Improvement and Vibration Suppression of Inverter-Controlled Servo Drives(Ministry of Science and Technology, 2014-2017, Sole PI)
5. Technology Development of Inverter-Controlled Infinite Speed Interior Permanent Synchronous Motor Drives for High Speed Applications (National Science Council, 2011-2014, Sole PI)
6. Technology Development of Inverter-Controlled Permanent Synchronous Motor Drives for High Speed Applications (National Science Council, 2008-2011, Sole PI)
7. Design and Implementation of Three-Level Inverter (National Science Council, 2005-2008, Sole PI)
8. Design and Implementation of PWM Controller (National Science Council, 2003-2005, Sole PI)
9. Development of Key Technology of Efficiency Promotion for Brushless DC Motor Drives (National Science Council, 2003-2004, Sole PI)
10. Parameter Tuning of Controller and Motor Parameter Identification of Direct Torque Control Drives (National Science Council, 2002-2003, Sole PI)
11. Design and Implementation of Multilevel Inverter (National Science Council, 1999-2002, Sole PI)
12. Direct Torque Control of Induction Motor Drives (National Science Council, 1996-1999, Sole PI)

Projects Sponsored by the Industry and Others:

13. Design of Switching Power Supply, (Adapter Co. Ltd., June. 1, 2018-May. 2019, Sole PI)
14. Implementation of AC servo system on RX 66T, (Renesas Electronics Taiwan Co., Ltd., March, 2018-Sep., 2018, Sole PI)
15. Implement DRP current-loop control for dual AC servo system, (Renesas Electronics Taiwan Co., Ltd., July, 2017-Dec., 2017, Sole PI)
16. Development of High Speed Spindle for IPMSM, (Hiwin, Jan. 2017-June, 2018)
17. Development of dual AC servo solution on RZ/T1, (Renesas Electronics Taiwan Co., Ltd., Sep., 2016-March, 2017, Sole PI)
18. Development of position control by RZ/T1 for AC servo solution, (Renesas Electronics Taiwan Co., Ltd., June, 2016-Nov., 2016, Sole PI)
19. Simulation of Power Supply, (Acbel, June, 2016- July, 2017, PI)
20. Resonance Identification and Suppression, (YUNGTAY Engineering Co. Ltd., Feb. 2015-Jan., 2016, Sole PI)

21. Digital Controlled Switching Power Supply, (Adapter Co. Ltd., Jan. 1, 2015-Dec. 2015, Sole PI)
22. Development of speed loop control by RZ/T1 for AC servo solutions, (Renesas Electronics Taiwan Co., Ltd., Dec, 2015-March, 2016, Sole PI)
23. Design of Multi-Inverters in Parallel, (ITRI, April.-Nov., 2015, Sole PI)
24. RZ/T1 AC servo control and decoding algorithm solution development, (Renesas Electronics Taiwan Co., Ltd., April, 2015-Sep., 2015, Sole PI)
25. Design of 4 kVA Inverter, (ITRI, Jan.-April., 2015, Sole PI)
26. High power converter with high efficiency, (Adapter Co. Ltd., Dec. 1, 2014-Oct. 2015, Sole PI)
27. RX64M MTPA and FOC solution development, (Renesas Electronics Taiwan Co., Ltd., July, 2014-Jan., 2015, Sole PI)
28. Initial Position Identification of PM Motor Rotor, (ITRI, April-Nov., 2014, Sole PI)
29. Study of High-efficiency Power Supply for Next Generation (2nd stage) (Hitachi Information & Telecommunication Engineering, Ltd., Japan, Aug., 2013-Sep., 2014, Sole PI)
30. RX62T MTPA development with MCRP07 Firmware, (Renesas Electronics Taiwan Co., Ltd., October, 2013-March, 2014, Sole PI)
31. Development of Self-commissioning Techniques for Permanent Synchronous Motor Drives, (Chroma, Aug. 2013 – July, 2014, Sole PI)
32. Multi-source Power Net for Vehicle, (ITRI, July-Dec., 2013, Sole PI)
33. RX62T 3-level Inverter Motor Control Solution-Phase 2, (Renesas Electronics Taiwan Co., Ltd., April, 2013-Sep, 2013, Sole PI)
34. Digital Power Supply, (Zippy Co., Ltd., March, 2013-March 2014)
35. Study of High-efficiency Power Supply for Next Generation, (Hitachi Computer Peripherals Co. LTD., Japan, Aug., 2012-Sep., 2013, Sole PI)
36. RX62T 3-level Inverter Motor Control Solution, (Renesas Electronics Taiwan Co., Ltd., October, 2012-March, 2013, Sole PI)
37. Duplication of RX210 Motor Control Solution Board, (Renesas Electronics Taiwan Co., Ltd., October, 2012-May, 2012, Sole PI)
38. Boost Control and Drives for Motor/Inductor Modes, (ITRI, March 2012-Nov. 2012, Sole PI)
39. Identification of Parameters of PMSM, (ITRI, March 2012-Nov. 2012, Sole PI)
40. Investigation of Digital-controlled Power Converters (Super Micro Co., Ltd., USA, Dec., 2011-Nov., 2012, Sole PI)
41. Self-commission of control parameter of the digital power study, (Hitachi Computer Peripherals Co. LTD., Japan, Aug., 2011-Sep., 2012, Sole PI)
42. The Development of RX210 Motor Control Solution, (Renesas Electronics Taiwan Co., Ltd., October, 2011-March, 2012, Sole PI)

43. Study on Vector Control of Permanent Magnet Motor and AC/DC Conversion, (ITRI, March 2011-Oct. 2011, Sole PI)
44. The Development of RX62T Motor Control with PFC and Realization of R32C/118 Compressor Solution, (Renesas ElectronicsTaiwan, Oct, 2010-Sep., 2011, Sole PI)
45. Development of Digital-Controlled IC for High Efficiency Power Converters, (Weltrend Electronics, CO. Ltd., Oct, 2010-Sep., 2011, Sole PI)
46. Study of High-efficiency Power Supply for Next Generation, (Hitachi Computer Peripherals Co. LTD., Japan, Aug., 2010-Sep., 2011, Sole PI)
47. Digital-Controlled AC/DC Converter for Server Applications, (Weltrend Electronics, CO. Ltd., July, 2010-Sep., 2011, Sole PI)
48. Development of DC/AC Converter for Back-up Power of Wireless Base Station, (Chung-Hsin Electric and Machinery Manufacturing Corp. (CHEM), Aug., 2010-Feb. 2011, Sole PI)
49. ON Line UPS Design Reference Implementation (Phase III) (Renesas electronicsTaiwan, April, 2010-Sep., 2010, Sole PI)
50. The development of the RX62T/RX621 for Motor Control Application (Renesas Electronics Taiwan Co., Ltd., April, 2010-September, 2010, Sole PI)
51. Design and Implementation of Inverter for Residential Applications of Fuel Cells-Phase II (Chung-Hsin Electric and Machinery Manufacturing Corp. (CHEM), Jan., 2010-Dec. 2010, Sole PI)
52. Study of Digital Control Power Supply (IV) (Hitachi Computer Peripherals Co. LTD., Japan, April, 2009-March, 2010, Sole PI)
53. ON Line UPS Design Reference Implementation (Phase II) (Renesas Technology Taiwan, September, 2009-March, 2010, Sole PI)
54. Design and Implementation of Inverter for Residential Applications of Fuel Cells (Chung-Hsin Electric and Machinery Manufacturing Corp. (CHEM), May, 2009-Dec. 2009, Sole PI)
55. R32C/118 Integrated Solution for Small Compressor and E-motorcycle Technology Research in Taiwan for the Future (Renesas Technology Taiwan, September, 2009-March, 2010, Sole PI)
56. Integration for Application Notes & Motor Control Software and Two Phase Modulation Implementation (Renesas Technology Taiwan, March, 2009-September, 2009, Sole PI)
57. OFF LINE UPS Design Reference Implementation (Phase 2) and ON LINE UPS Design Reference Implementation (Renesas Technology Taiwan, March, 2009-September, 2009, Sole PI)
58. R8C Base Motor Control (Renesas Technology Taiwan, September, 2008-March, 2009, Sole PI)
59. Off Line UPS Design Reference Implementation (Phase 1) (Renesas Technology Taiwan, September, 2007-March, 2009, Sole PI)
60. Study of Digital Control Power Supply (III) (Hitachi, Ltd. Japan, April, 2008-March, 2009, Sole PI)
61. Implementation of Power Converter (ITRI, July, 2008-Dec., 2008, Sole PI)

62. Development of Multi-channel Interleaved Digital DC-DC Converter (Renesas Technology Taiwan, April, 2008-Sep., 2008, Sole PI)
63. Motor Control Method for SH7211 Implementation(Phase 2) (Renesas Technology Taiwan, April, 2008-Sep., 2008, Sole PI)
64. Design and Implementation of DC Converter for Vehicle Applications (TECO Electric & Machinery Co. Ltd., March, 2008-Nov., 2008, Sole PI)
65. Topology Evaluation of DC Converter for Vehicle Applications (TECO Electric & Machinery Co. Ltd., Dec., 2007-Feb., 2008, Sole PI)
66. Motor control method for SH7211 implementation(Phase I) (Renesas Technology Taiwan, Oct., 2007-March., 2008, Sole PI)
67. Development of PAM converter with PFC for air-conditioning applications (SAMPO, Corp., Aug. 2007, June, 2008, Sole PI)
68. Development of high power DC-DC converter for wire machining (ITRI, July, 2007-June, 2008, Sole PI)
69. Development of converter with energy recovery for wire machining (ITRI, July, 207-June, 2008, Sole PI)
70. Motor drives for 180-degree since-wave BLDCM with Hall sensor using M16C (Renesas Technology Taiwan, July, 2007-Sep., 2007, Sole PI)
71. Development of synchronous phase-shift full-bridge digital DC-DC converter, (Renesas System Solutions Asia, Singapore, April 2007-March, 2008, Sole PI)
72. Study of digital control power supply II (Hitachi, Ltd. Japan, April, 2007-March, 2008, Sole PI)
73. Digital power for PFC meeting the standby power regulation (ITRI, March, 2007-Nov. 2007, Sole PI)
74. ZVS 800 W evaluation board (Infineon Technologies Asia Pacific Pte. Ltd, Singapore, Jan. 2007-Dec. 2007, Sole PI)
75. A development of digital PFC-phase II (Renesas System Solutions Asia, Singapore, Nov. 2006-March, 2007, Sole PI)
76. Study of digital control power supply (Hitachi, Ltd. Japan, April, 2006-March, 2007, Sole PI)
77. A development of digital PFC-phase I (Renesas System Solutions Asia, Singapore, April. 2006-Oct., 2006, Sole PI)
78. Design of Control Chip for Resonant AC/DC Converter (ITRI, April, 2006-Nov. 2006, Sole PI)
79. 800 W soft witching CCM PFC with 21 W AUX power (Infineon Technologies Asia Pacific Pte. Ltd, Singapore, Jan. 2006-Dec. 2006, Sole PI)
80. Study on DSP applications to switching power supply (Renesas System Solutions Asia, Singapore, Oct. 2005-March, 2006, Sole PI)
81. Magnetic Charger Device (Renfoss, Inc., June, 2005- Dec. 2005, Sole PI)
82. 1.5KW-24V/45VPower Converter (ITRI, March, 2005-Nov. 2005, Sole PI)
83. Study on digital power supply (Hitachi Micro System Solutions Asia, Singapore, Nov. 2004-April, 2005, Sole PI)

84. AC/DC Converter with PFC (Infineon Technologies Asia Pacific Pte. Ltd, Singapore, Nov. 2004-Sep. 2005, Sole PI)
85. Bi-directional Converter (TECO Electric & Machinery Co. Ltd., July, 2004-June, 2005, Sole PI)
86. Random PWM Technique with Regular Sampling (TECO Electric & Machinery Co. Ltd., July, 2004-Dec., 2004, Sole PI)
87. Driver of MCU-controlled Inverter for Compressor (ITRI, March, 2004-Nov. 2004, Sole PI)
88. Power Stage for PAM-Controlled Brushless DC Motor Drives (ITRI, March 2004-Nov. 2004, Sole PI)
89. High Power Switching Mode Power Supply with Multiple Outputs (Hitachi Micro System Solutions Asia, Singapore, March 2004-Oct., 2004, Sole PI)
90. Wire Cut Machining (ITRI, March, 2003-Nov. 2003, Sole PI)
91. Implementation of High Efficiency Power Control (Hitachi Micro System Solutions Asia, Singapore, March 2003-Feb., 2004 Sole PI)
92. Controller for Electric Discharger (Chang-Horng Electronics CO., Ltd., August, 2003-July, 2004, Sole PI)
93. Driver Circuit of Motor Drives for Home Appliance Applications (Hitachi Micro System Solutions Asia, Singapore, March 2002-Feb., 2003, Sole PI)
94. Applications of Hitachi Power Control IC (Hitachi Micro System Solutions Asia, Singapore, March 2002-Feb. 2003 Sole PI)
95. Inverter-Controlled Screw Type Chiller (Bureau of Energy, Ministry of Economics Affairs, Aug. 2001-Dec. 2001, Sole PI)
96. Control of Brushless DC Motor Drives without Sensor (Hitachi Micro System Solutions Asia, Singapore, March 2001-Feb., 2002 Sole PI)
97. EMI Suppression for Inverter (ITRI, May, 2001-Nov. 2001, Sole PI)
98. DVD Spindle Drives Control (Jin-Chen Co., Ltd., March 2000-July, 2001 Sole PI)
99. Study on Energy Saving for using Inverter-Controlled Air-Conditioner(Bureau of Energy, Ministry of Economics Affairs, Jan. 2000-Dec. 2000, Sole PI)
100. Motor Drives for Electric Scooter (Shihlin Electric Co., Ltd., Jan. 1999-Dec. 2000, Sole PI)
101. Investigations into the Applications of High Power Inverter to Air-Conditioner (Bureau of Energy, Ministry of Economics Affairs, Feb. 1999-July. 1999, Sole PI)
102. State-of-Charge Indicator, Voltage and Current Sensing Modules for Electric Scooter (Bureau of Energy, Ministry of Economics Affairs, Jan. 1999-Dec. 1999, Sole PI)
103. Modeling and Pulse-width Modulation Control of High Power Inverter (ITRI, Aug., 1998-Dec. 2000, Sole PI)
104. Control of Permanent Magnet Synchronous Motor (ITRI, Aug., 1998-Nov. 2000, Sole PI)

Selected Short Courses and Invited Speeches:

1. Invited Plenary Speaker, “Energy Efficiency of Motor, Motor Drives and Power Converters”, International Power Electronics Conference- IEEE ECCE Asia, May 20-24 5-8, 2018.

2. Invited Speaker, “Roles of Power Electronics after COP21”, International Conference on Renewable Energy Research and Applications, Nov. 5-8, 2017.
3. Invited Speaker, “Development of AC Servo Drives using RZ/T1”, Renesas DevCon, September 8, 2016
4. Invited Speaker, “Motors Drive the World! Drives Drive Motors!”, MEAN WELL Enterprises Co., Ltd., September 8, 2015
5. Invited Speaker, “Development of Digital Power”, NCTU, HsinChiu, April 29, 2015
6. Invited Speaker, “Development of Fully Digital-Controlled UPS”, University of Southern Denmark, Odense, Denmark, April 16, 2015
7. Keynote Speaker, “Development of Converters and Motor Drives using Renesas MCUs”, Renesas Electronics Professor Conference, Yi-Lan, Dec. 14, 2014.
8. Invited Speaker, “Development of Motor Drives”, RichTek Co. LTD., HsinChiu, Oct. 21, 2014
9. Invited Speaker, “Induction Control Technology-High Speed Control”, ITRI, HsinChiu, Oct. 3, 2013
10. Invited Speaker, “Introduction to Center for Power Electronics Technology”, The University of Tennessee, Knoxville (UTK), USA, September 14, 2012
11. Invited Speaker, “Applications of Inverter to Energy Saving”, National Taiwan University, Jan. 3, 2011
12. Invited Speaker, “Applications of Inverter to Energy Saving”, National Taiwan University of Science and Technology, Dec. 13, 2010
13. Invited Speaker, Renesas Forum, China, Beijing, Shenzhen and Shanghai, “Development of Fully Digital-Controlled On-Line UPS using One MCU”, Dec. 2-Dec.8, 2010
14. Invited Speaker, “Power Saving Techniques”, Providence University, Jan. 8, 2010
15. Invited Speaker, “Development of Digital Power Technology”, ACBEL POLYTECH Inc., August 5, 2009
16. Invited Speaker, “PAM and PWM Control of Brushless DC Motor Drives”, National Center University, May 25, 2009
17. Invited Speaker, “Projects for Power Supply Sponsored by the Industry at NTUT”, National Cheng-Kung University, March 3, 2009
18. Invited Keynote Speaker, Renesas Forum, “Development of Digital Power Technology”, Taipei, Dec. 10, 2008
19. Invited Speaker, “Digital Controller Design for Buck Converter with the Reduction of Phase Transition and Output Voltage Oscillation under Transient State” Dong-Nan University, Taipei, Nov. 10, 2008
20. Invited Keynote Speaker, Renesas Forum, “Introduction to the Technology Development of Brushless DC Motor Drives”, Taipei, Nov. 7, 2007
21. Invited Keynote Speaker, Infineon Forum, “New EMI Filter Design Method For Single Phase Power Converter”, Taipei, May, 15, 2007
22. Speaker to International Light Electrical Vehicle Meetings and Conference, March, 2007, Hisin-Chu, Taiwan, Topic: Design Consideration of Motor Drives for the Applications of Light Electric Vehicle

23. Short Course for Shihlin Electric, Inc., Hisin-Chu, Taiwan, January, 2007, Topics: Switching Mode Power Supply Design
24. Short Course for Delta Electronics, Inc., Chung-Li, Taiwan, December, 2006, Topics: Analog Power Supply Design
25. Invited Speaker to National Taiwan University, Taipei, Taiwan, August, 2006, Topics: Projects of Power Supply Sponsored by the Industry
26. Invited Speaker to National Taiwan University, Taipei, Taiwan, May, 2006, Topics: Technology for Inverter-Controlled Brushless DC Motor Drives
27. Invited Speaker to ITRI, Hisin-Chu, Taiwan, May, 2005, Topics: Future Technology Development of Power Converter
28. Short Course for Delta Electronics, Inc., Chung-Li, Taiwan, September, 2005, Topics: Technology of Power Factor Correction
29. Short Course for Delta Electronics, Inc., Chung-Li, Taiwan, July, 2005, Topics: Technology of Switching Mode Power Converters
30. Invited Speaker to Rockwell Automation Taiwan, Co. Ltd., Taipei, Taiwan, July, 2005, Topics: PWM and Control Technology for Three-Phase Inverters
31. Invited Speaker to Renesas System Solution, Tokyo, Dec. 12, 2004, Topics: Application of DSP to Power Electronics
32. Invited Speaker to TECO Electric & Machinery Co. Ltd., July, 2004, Topics: Random PWM Technology for Vector Control
33. Invited Speaker, Taipei Power Forum, “Technology development of motor drives,” Taipei, Dec. 1-3, 2004
34. Short Course for ITRI, Hisin-Chu, Taiwan, November, 2004, Topics: Technology of Switching Mode Power Converters
35. Short Course for Tze-Chiang Foundation, Hisin-Chu, Taiwan, July, 2004, Topics: PWM Technology and Design of Controller for Induction Motor Drives
36. Short Course for ITRI, Hisin-Chu, Taiwan, May, 2003, Topics: Technology of Inverter Control
37. Short Course for ITRI, Hisin-Chu, Taiwan, August, 2002, Topics: Technology of Inverter-Controlled Drives
38. Invited Speaker to ITRI, Hisin-Chu, August, 2001, Topics: High Power Inverters
39. Short Course for ITRI, Hisin-Chu, August, 2000, Topics: Design and Applications of Inverter
40. Short Course for ITRI, Hisin-Chu, August, 1999, Topics: Vector and Direct Torque Control of Induction Motor Drives
